

S LUB 10

TECHNICAL INFORMATION

S LUB is a special lubricant for fiber optical installation for min and micro cable with blowing machine. It's a water emulsion of different kind of polymers.

S LUB is a water base product with high efficiency of lubricant. It's reduce dramatically the friction. S LUB is white liquid little viscosity.

S LUB adhere perfectly at the cable surface or at the internal surface of the pipe. It's leave a very tiny film of lubricant and does not make the glue effect. Product Use: Cable and Duct Prelubrication

Suggest Uses quantities for 1.000 mt

Use:

Shake the bottle before use, then put the product inside in the pipe. Then pre-lubricant the pipe with a little piece of sponge.

The product is also suitable for blowing machine with oil dispenser to lubricating the fiber during the pushing.

The S LUB 10, also can be useful to lubricate the fiber optic before or after blowing machine. It's depend on the appliance with iron wheel or with rubber wheel.

diam Ø mm internal pipe	Quantities of product	How much the pipe must be feel of the product (different kind of measure for the same quantities)
4 mm	8 ml	55-60 cm
8 mm	15 ml	30-35 cm
12 mm	22 ml	20-22 cm

Technical Specification:

Aspect	White liquid tiny viscosity
Odour	none
Viscosity	15 sec. Ford cup diam. mm 4 at 20C°
Spefigic gravity	1,030 +- 0,03 gr/cm ³
pH	7,5 +- 0,5
Inflammability	non infiammabile
Temperature	-10° + 65° C.
Biodegradability	il prodotto è biodegradabile
Toxic	The product is not toxic.
